

The Challenge:

- ✓ **Innovation:** You're constantly innovating to attract top students, and differentiate from other universities.
- ✓ **Sustainability:** You're continually challenged to improve sustainability, and reduce your carbon footprint.
- ✓ **Student Experience:** You're evolving to meet and exceed student - and parent - expectations to earn tuition, revenue, charitable contributions, alumni engagement, and rankings for your institution.
- ✓ **Faculty Confidence:** Your faculty is a core asset for revenue and prestige, but they have concerns about returning to in-person instruction at the risk of getting sick.

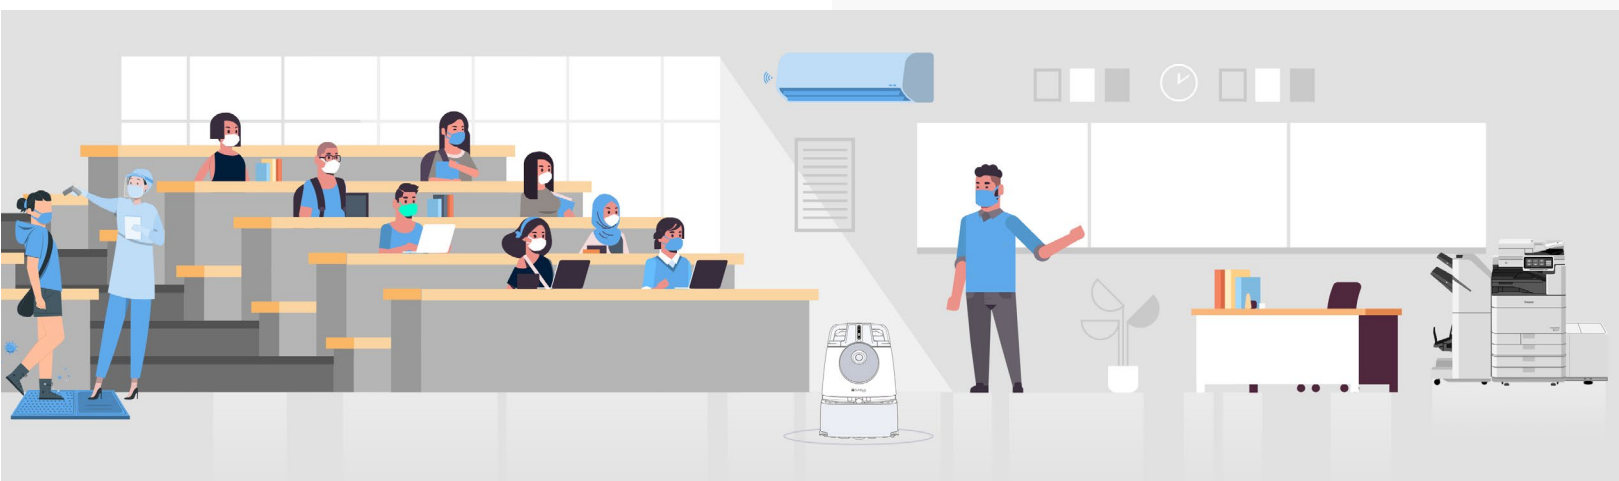

The Solution:

Meet Whiz

What's the next step in your campus experience ecosystem? **Reassurance.**

- ✓ VISIBLE
- ✓ DATA-DRIVEN
- ✓ MARKETABLE
- ✓ EFFECTIVE

The Results in Education

Bring people back to campus by demonstrating your investment in their health and safety while also achieving:

8X

Improvement in dust control

50%

Cleaner floors compared to manual vacuuming

61%

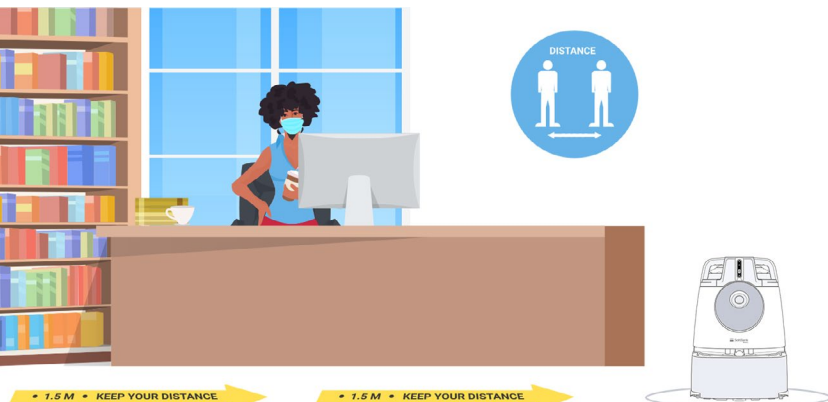

Higher cognitive function in buildings with clean air*

“Evidence that the space will be cleaner and safer is important to me.”

- SBRA Survey, October 2020

“These autonomous vacuums work as a staffing supplement, taking care of some of the more monotonous jobs, allowing our skilled staff to take care of more essential tasks.”

- Trhile Brown, Operations Supervisor, Custodial Services at [Michigan State University](#)

Universities across the country have deployed Whiz in their **libraries, office buildings, hallways, and sports facilities.**
